

Lean Enterprise System Solutions

Massachusetts' Premier Lean Corporate Training Service Provider

LESS specializes in Continuous Improvement and Operational Excellence. We teach owners, leaders, and employees the skills and tools they need to be successful every day.

We are dedicated to delivering high quality Lean business solutions to small and mid-size organizations and pride ourselves on delivering those solutions in a fun, applicable, hands-on, and sustainable manner.

LESS offers 3 separate programs, each based on where our clients are in their Lean journey. All programs are client specific to meet their unique needs.

In this rapidly evolving world that we work in, where industries and markets are constantly changing, businesses need a system in place to be able to adapt and stay competitive. Integrating a Lean culture of continuous improvement and operational excellence into your organization will achieve this while empowering your managers & employees to do better every day.

LESS will happily train your team in our Lean Business System, providing your organization a foundation for innovation, improvement, and growth.

Educational:

This program is designed for clients who are about to begin their Lean journey and is a great introduction to Lean Concepts and the Lean Business System. We also offer courses to develop the Managerial skills needed in an ever-changing business environment.

Practical:

This program is designed for clients who want to begin implementing components of our Lean Business System. We train clients on how to create and implement breakthrough process improvements that will significantly improve safety, quality, delivery, cost & inventory.

Transformational:

This program is designed for clients who want to become a world-class, Lean organization. Clients will transform their organization by implementing our entire Lean Business System, over a 2-year period, to achieve its corporate strategic vision.
